

# Course progression map for 2018 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

## **B6014 Master of Actuarial Studies**

The placement of units may be rearranged to provide flexibility in choice of elective units but care should be taken to ensure sequenced units are maintained in sequence.

Year 1 Semester 1	BFC2340 Debt markets and fixed income securities	ETC2430 Actuarial statistics	ETC2410 Introductory econometrics	ECF5923 Macroeconomics and monetary policy
Year 1 Semester 2	ETC5252 Probability and statistical inference for economics and business	ETC5343 Financial mathematics under uncertainty	ETC5353 Insurance and pensions	Application studies unit 1
